

# How are we going to make our school even better?

School Improvement Plan for Pupils 2019/2020

**How Good is OUR school: Theme 2**

**Red House Priority**

We are actively involved in planning what and how we learn; we get to make choices about our learning.

Our learning is planned so we can each build on what we already know and can do.

**How Good is OUR school: Theme 2**

**Blue House Priority**

We are developing skills and attitudes that support us to take responsibility for aspects of our own learning.

Our learning experiences include learning beyond the classroom

**How Good is OUR school: Theme 4**

**Green House Priority**

Everyone in our school knows and understands the wellbeing wheel. We use it to assess how well we are getting on with our own wellbeing.

We understand the rights to which we are entitled and the adults in our school community support us to exercise these rights. We show respect for the rights of others.

**How Good is OUR school: Theme 5**

**Yellow House Priority**

Everyone in our school has opportunities to be able to develop a variety of different interests, talents and learn new skills.

We have opportunities to gain formal awards and accreditation which recognises our achievements.

How will you have your say and improve St Andrew's?

By gathering evidence

By considering what is excellent about St Andrew's

By discussing how things are going
